**Melissa Ritts** offers up an idea to help adopt a family in need. It's a Mom and 3 kids. Ages: 8 year old twins, and a 14 year old.

### **The support member discussion was then held.**

Terrie began the discussion stating that she is still waiting on a response from National as to what exactly the role of the support members is for the chapter they belong to, or is this something that is decided by the individual chapters. She had a response from the Queen City Riders, they have only women rides.

All read or said what their feelings were about the support members riding the rides with the members. A final vote was taken and was decided by the majority to include the support members on 1 overnight ride per season, and to include them to be on a portion of the Pack rides. Other rides will be women only. This will be designated on the ride list calendar.

The meeting was then concluded with the 50/50 drawing. Total money collected was \$60, split with the Pack and the winner, **Joyce**. \$25 dollars was taken in from donations from the members.
